SBJ performs SI procedure

Southern Bone & Joint Specialists has performed its first Sacroiliac (SI) joint fusion procedure at our same-day, AAAHC-accredited surgery center.

SI joint pain may be caused by injury, arthritis or repetitive movement that places pressure on the joint in the lower back and buttock area. When conservative treatments have not provided relief, SI joint fusion may be an option. This minimally invasive procedure aims to reduce inflammation, alleviate pain and support a return to everyday activities.

Call Southern Bone & Joint Specialists at 601-554-7400 to schedule an evaluation with our spine team and determine whether you may be a candidate.

Badon receives board certification

Badon

Justin Badon, M.D. recently received board certification in orthopaedic surgery through the American Board of Orthopedic Surgery.

Dr. Badon earned his bachelor of science in biology from Delta State University and his medical degree from the University of Mississippi School of Medicine. He completed his orthopaedic residency at the University of Mississippi Medical Center and went on to pursue advanced fellowship training in shoulder and elbow surgery at the University of Pittsburgh Medical Center. Dr. Badon is a member of the American Academy of Orthopaedic Surgeons and the American Shoulder and Elbow Surgeons. He sees patients at our Hattiesburg and Brookhaven locations.
