Fellowship-trained joint replacement surgeon joins SBJ

Jacob Folsie, M.D., fellowship-trained joint replacement orthopaedic surgeon, has joined Southern Bone and Joint Specialists, P.A. Folsie received his bachelor's degree in biological sciences from Louisiana State University, his medical degree from Louisiana State University Health Sciences Center. He completed an internship in Greenville, S.C. and an orthopaedic residency at University of Mississippi Medical Center. He completed his fellowship at Southern Joint Replacement Institute in Nashville, Tenn. Folsie is married to Kayla and has two girls, Vivien and Emma.

Jacob Folsie, M.D.

Barbieri contributes to textbook chapter

Dr. Rocco Barbieri has contributed a textbook chapter for *Problems in Hand Surgery: Solutions to Recover Function* by internationally renowned hand surgeons Michael W. Neumeister and Michael Sauerbier including a group of contributors. The step-by-step surgical resource is for orthopaedic and plastic surgeons and students. The chapter focuses on complications with lunotriquetral fusion. Barbieri is a fellowship-trained, board certified hand and upper extremity orthopaedic surgeon.

Rocco Barbieri, M.D.

Berry performs first lateral meniscus transplant in South MS

Dr. Hunter Berry was the first orthopaedic surgeon to perform a lateral meniscus transplant in South Mississippi in Southern Surgery Center. A meniscal transplant replaces the damaged meniscus with donor cartilage. The procedure involves a two to four inch incision. Patients often need a minimum of two weeks before returning to some basic daily activities. Patients usually can return to playing sports within six months. Berry is a fellowship-trained, board-certified sports medicine orthopaedic surgeon.

Hunter Berry, M.D.

Kosko and Robertson are only foot and ankle orthopedic surgeons in Pine Belt

Dr. John Kosko and Dr. Rob Robertson are the only fellowship-trained, board-certified foot and ankle orthopaedic surgeons in the Pine Belt. Foot and ankle orthopaedic surgeons are medical doctors who specialize in the diagnosis and treatment of injuries, diseases, and other conditions of the foot and ankle. Their comprehensive education and training include four years of medical school, five years of residency training in orthopaedic surgery, and a one- or two-year fellowship focused on foot and ankle care.

Charoglu celebrates 15 years with SBJ

Dr. Constantine Charoglu, fellowship-trained, board-certified hand and upper extremity orthopaedic surgeon, joined SBJ in 2005. "It seems like the other day I was in Kentucky and received the invitation from SBJ to come visit South Mississippi. Now it is home," said Charoglu. Charoglu received his bachelor's degree from Dartmouth College and his medical degree from New Jersey Medical School in Newark, N.J. He completed his residency at New Jersey Medical School and his fellowship in hand and micro surgery at the Hand Center of Western New York at the State University of New York. He is a member of the American Society for Surgery of the Hand (ASSH) and a fellow of the American Academy of Orthopaedic Surgeons.

Buddy Moore, P.A.

Bell performs EMGs

Hallie Bell, M.D.

Dr. Hallie Bell performs SBJ's electromyography, which evaluates the health condition of muscles and the nerve cells that control them. An EMG translates the electrical signals into graphs or numbers, helping doctors to make a diagnosis.

A doctor will usually order an EMG when someone is showing symptoms of a muscle or nerve disorder. These symptoms may include tingling, numbness, or unexplained weakness in the limbs. EMG results can help the doctor diagnose muscle disorders, nerve disorders, and disorders affecting the connection between nerves and muscles.

Melancon see patients in Picayune

Dr. Keith Melancon sees patients in our Picayune office. Please call 601-554-7400 to make an appointment.

Keith Melancon, M.D.
